help you as best
we can.*

A HEAVEN IN THE CENTRE OF THE CITY

The Café menu represents the evolution of Langosteria, which, throughout its history, has always placed great importance on its location and methodology.

Here, in the centre of Milan, where days begin early and finish late, Langosteria's attention towards the sea and its produce remains unaltered, but is enhanced by other proposals, other flavours, other moments of the day, to satisfy the needs of those passing through, looking for a place which is welcoming, cosy and fragrant, and where one can find something good to eat. A haven - in the city, and in the ocean of Langosteria, - where international dishes can be found alongside the traditional sea-based cuisine.
